SEKURAK.ACADEMY

CERTIFICATE

OF PARTICIPATION IN THE SEKURAK.ACADEMY 2026 TRAINING

FINDING AND EXPLOITING IRREGULARITIES IN ACCESS POLICIES

GRANTED TO

Kamil Herman

DATE: 16.03.2026	**TRAINER:** Marek Rzepecki	**DURATION:** 1.5 hours

AGENDA

1. Types of offensively relevant ACL permissions, permissions leading to escalation, enumeration of misconfigurations.
2. Permission Delegation – Unconstrained, Constrained, RBCD – the delegation mechanism in Kerberos.
3. Exploitation of invalid permissions on GPOs – consequences of invalid ACLs on policy objects, privilege escalation by modifying GPOs in the scope of machines/users.
4. Kerberos and errors in access policies – AS-REP Roasting, Kerberoasting, and Targeted Kerberoasting as a consequence of configuration errors; demonstration of the full path to offline cracking.
